

Michigan Vintage Snowmobile Championship Series.

www.mvscs.com

New for this year, a virtual points championship for vintage sled racers! Points will be awarded from races at Lucky Thumb Motorcycle Club and Albright Shores. The results will be posted on www.michiganvintagesnowmobilechampionshipseries.com as soon as possible after each weekends race. And what are the prizes? BRAGGING RIGHTS! This is being put together to showcase all the great vintage sled racers at both tracks. A season champion for each class will be crowned at the end of the season.

Heres how it'll work:

1. Points are awarded to the driver, not the sled.
2. Points awarded are based on the drivers finish in the feature race in their class. Semi's aren't scored for points.
3. Points awarded are- 1st place = 20 pts. 2nd = 16. 3rd = 13. 4th = 11. 5th = 10. 6th through 14th place are awarded one consecutive point less per place finished. Example- 6th = 9 pts, 14th = 1 pt.
4. Driver and sled must leave the starting line under the sleds power to be scored for points. No start = no points.

There are 4 classes that will have points combined from races at both Lucky Thumb and Albright Shores towards a season champion. The driver who races at both tracks will have the points gained at each track combined. They are-

120 stock, LT HR + AS HR improved, LT HD + AS HD improved, and Single Mod.

All other classes will have a season championship awarded in each individual class at each track. The points from one track WILL NOT carry over to the other track other than the 4 classes listed above. There are many classes similar between the tracks, so almost all the sleds will have a class to run in at each track (but check each tracks rules first!!) Drivers are able to bump up into different classes when applicable, and get points in those classes as well.

The cost to enter the Michigan Vintage Snowmobile Championship Series is exactly the same as the prizes are- NOTHING!! Again, this is a virtual points series for fun. Check www.mvscs.com for updates and more info.
